

# Eclipse Premium

HOMOGENEOUS FLOORCOVERING

VINYL

- > Harmonised colour range
- > Classic non-directional design
- > PUR reinforced – Easy low-cost maintenance
- > Favourable initial cost
- > No additional surface treatment needed

## A dependable flooring solution

Eclipse Premium is a homogeneous, high-quality vinyl flooring suitable for most types of premises such as schools, health care facilities and other types of public buildings. Eclipse Premium is PUR reinforced and needs no wax and no polish – for life.

Compared with all the other PUR-reinforced vinyl floorings on the market, Eclipse Premium is a very good choice due to its high-quality properties and competitive price.

### **PUR treatment for an excellent life cycle cost**

With Eclipse Premium you get a hardwearing vinyl flooring with a harmonious design, balanced raw material content and good maintenance properties. Eclipse Premium needs no additional surface treatment such as polish or wax when exposed to normal wear and tear. This will have a beneficial effect on the life cycle cost.

### **Maintenance costs are crucial**

Calculations show that the initial cost of buying and installing flooring is about 8% of the total cost over

the flooring's service life of at least 20 years. That means cleaning and maintenance represent as much as 92% of the total cost. Cleaning and maintenance costs are the largest item of expenditure in property management, and therefore very important for overall economy. However, they are often overlooked in initial budgets. Analysing and providing the best conditions for the efficient care and maintenance of floors pays dividends. Choosing the right flooring, with the right cleaning properties, is therefore crucial for obtaining a good life cycle cost.

### **What pays in the long term?**

A complete analysis of the total life cycle cost for different vinyl floorings shows that a low-price floor covering, which requires regular treatment with polish, proves to be the most expensive choice over time. Eclipse Premium from Tarkett offers a perfect compromise if you have a limited initial budget and still want PUR reinforced, high-quality function and an excellent life cycle cost.

### **Tarkett Environmental Intelligence**

We see our Intelligent Flooring Solutions as part of the world's ecological system – and make strong efforts to secure that all our activities are based on respect for the environment. All our flooring products are developed, produced and handled with a great concern for sustainability and environment. We call it Environmental Intelligence and live by this principle in every single step, from vision to waste.

### **Environmental Intelligence in our vinyl flooring**

Tarkett introduced the first vinyl flooring more than 60 years ago, and environmental sustainability has always been in focus for us.

- 100% recyclable
- Low energy consumption
- Easy and lowest maintenance cost ever
- Low emissions
- Long life cycle avoiding short-term replacement and minimizing old installation waste
